c. GRAY WATER TRUCK, (Year, make, model, _____ gallons, License, VIN) <i>See Helps & Hints for additional Gray Water clauses</i>		1	\$	Day	\$1.25	Mile	N/A
14. SPECIAL PROVISIONS (a.) The General Clauses along with replacement clauses are attached and incorporated herein. See attached Federal Acquisition Regulations (FAR) clauses, NRCG Supplemental Terms and Conditions to the General Clauses of the Emergency Equipment Rental Agreement, OF-294, and Register of Wage Determination Under the Service Contract Act. (b.) If the equipment is ordered without operator, <u>reduce</u> the fully operated daily rate, one operational period by \$350; reduce the fully operated daily rate, two operational periods by \$600. (c.) All cargo and equipment not permanently attached to the vehicle shall be secured in accordance with requirements found in 49 CFR 393. (d.) At time of hire, the contractor shall provide a complete inventory of the firefighting complements on the vehicle. Equipment not required by the Chapter 20 Checklist for Water Tenders and Water Trucks, will be carried at the contractor's own risk. Compensation will not be given for additional items. All equipment, including operators and accessory equipment, shall be within the limits of the manufacturer's GVWR when fully loaded. Contractor to provide loaded weight tickets from a certified scale. (e.) Water Truck position must be accompanied by a NWCG 310-1 qualified supervisor while on fireline duty. (f.) Prior to mobilization of equipment specified in Block 9., the Contractor shall ensure the accuracy of the class of equipment being requested (such as, WT1 or WTR1) for the assignment. Any discrepancies in the order will result in the lower equipment classification for payment purposes. When equipment qualifies as more than one type, it will be paid at the rate ordered as documented on the Resource Order. (g.) After January 1, 2004, non-pluggable, overflow devices are not allowed to meet GVWR. Beyond January 1, 2004, all Water Tenders/Trucks must meet GVWR fully loaded. (h.) This Emergency Equipment Rental Agreement is void if not presented with a valid Incident Specific Resource Order or Number.

**PRESEASON
CERTIFICATION FOR WATER TENDERS**

This certification is incorporated in and made part of Emergency Equipment Rental Agreement No. _____.

The equipment listed herein meets all of the minimum requirements for the equipment type.

EQUIPMENT TYPE

SERIAL NO.

LICENSE NO.

The following individuals meet all the personnel and training requirements for the position listed.

NAME

POSITION

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

The personnel listed above shall be provided with the equipment, in the numbers required by the agreement and equipment typing configurations. The personnel and equipment qualifications are in accordance with NRCG Supplement to Chapter 20 of the Interagency Incident Business Management Handbook.

A copy of the Emergency Equipment Rental Agreement, along with this certification, shall be provided to the Finance/Administration Section Chief or their designated representative immediately upon arrival at the incident.

Failure to provide equipment meeting the typing configurations or the above named personnel shall void the payment schedule listed in Blocks 11, 12 and 13 of the agreement.

I certify that the above listed equipment meets the minimum typing standards for the type listed. I also certify that the above listed personnel meet all of the qualification requirements for the position(s) listed.

PRESEASON CHECKLIST FOR WATER TENDERS

Equipment Type	_____
Serial No.	_____
1. Pump Capacity (GPM)	_____
2. Tank Capacity (Gallons)	_____
3. Off Load Capacity (GPM)	_____
4. Maximum Refill Time (Minutes)	_____
5. Meets Personnel Standards	_____
6. Baffled Tank	_____
7. Back up Alarm	_____
8. Complement Requirements:	

1½ inch nozzle NH – combination; fog/straight stream (Plastic or metal)	
1½ ” NH female to 1 inch NPSH male reducer	
20 feet suction hose (minimum) with strainer or screened foot valve	
Shovel, size 0	
Pulaski	
Spanner wrench, combination 1½ to 2½	
Adjustable hydrant wrench	
2 adapters, 1½ inches NPSH female to 1½ inches NH male	
1 set, ¼ turn to 1 ½ inches NH (1 female and 1 male ea.)	
2 adapters, 1½ inches NH female to 1½ inches NPSH male	
2 reducers, 2½ inches NH female to 1½ inches NH male	
1 double male, 1½ inches NH	
1 double female, 1½ inches NH	
1 gated wye, 1½ inches NH	
1 Forestry Hose Clamp - 2½ inches	
1 first aid kit (5 person)	
Reflectors (1 set of 3)	
Fire extinguisher (5BC or better)	
Wheel chocks (meets industry, standards for wheel chocks)	
Fuel to operate pump and engine for 12 hours. (minimum 5 gallons)	
2 each, portable hand lights	
1 each, 1,500 gallon minimum portable collapsible tank	
100 feet of 1½ inches cotton/synthetic hose, NH thread	
200 feet of 2½ inches cotton/synthetic hose, NH thread	
Discharge outlets: 2 each 1½ inches NH thread	
Discharge outlet, 1 each 2½ NH thread	

Tire Tread Depth equal to 6/32		
	FRONT AXLE	REAR AXLE
9. Chassis Manufacturer's GVWR		
10. Loaded Actual Weight (From certified scale)		

NOTE: Equipment not required by this list is carried at the contractors' own risk, compensation will not be given for additional items. List additional items on the back of this form

14. Chassis Manufacturer's GVWR		
15. Loaded Actual Weight (from certified scale)		

NOTE: Equipment not required by this list is carried at the contractors' own risk.

Compensation will not be given for additional items.

List additional items on the back of this form

CONFIGURED AS ABOVE THIS UNIT IS CLASSIFIED A TYPE
____ WATER TRUCK

EERA _____

NOTE: Equipment not required by the above list is carried at the contractors' own risk, compensation will not be given for additional items.

Additional Items:

HINTS AND HELPS :

- **Vehicle History:** Check www.safesys.org for vehicle driving and safety report. File in EERA folder.
- **Inspections:** Unit to be fully loaded at the time of inspection, with the contractor providing loaded weight tickets from a certified scale.

- **Water Tenders** (Add Page 2–Certification For Water Tenders to EERA)

Contracting Information

For clarification purposes, **water tenders** are intended for use in the following operations: for use on the fire line, or in direct support of fire suppression activities, but not designed to substitute as an engine. Water tenders **do not** need 310-1 supervision "on the fire line".

- * Proof of completion of training and fitness test by whom and when.
- * List of qualified driver(s)/operator(s)
- * Copy of Workman's Comp coverage, or certification of exemption from state.
- * Inventory of equipment compliment list.
- * Copy of Liability insurance coverage on the vehicle.
- * Copy of current Vehicle Registration.
- * Original Certified Weight Ticket for the vehicle. (By individual axle weight)
- * Tax ID Number (Federal ID, Employer ID)
- * Medical Examiner's Certificate for driver of any vehicle with GVWR over 10,001 pounds for out of state dispatch.
- * Checklist for Water Tender with classification

Foam Units

- *If the water tender is **ORDERED** with CAFS or ARPS foam capabilities it shall be paid additional compensation.
- *If the water tender has CAFS or ARPS and incident personnel **USE** it on an incident, it shall be paid additional compensation.
- *The government shall provide the foam or make reimbursement when provided by the contractor.
- *CAFS = 10% of specified unoperated rate.
- *ARPS = 5% of specified unoperated rate.
- ***NO ADDITIONAL COMPENSATION** for any other foam capabilities, such as educator units which siphon foam into the hose system, or when foam is dumped directly into the tank.

- **Water Trucks** (Add page 2 – Certification For Water Trucks to EERA)

Contracting Information

For clarification purposes, **water trucks** are intended for use in the following operations: Dust abatement, water transfer and hauling, including unloading into portatanks. Water trucks **must have** 310-1 supervision "on the fireline".

- * List of qualified driver(s)/operator(s)
- * Medical Examiner's Certificate for GVW over 10,001 pounds for out of state dispatch.
- * Proof of completion of training and fitness test by whom and when.
- * Copy of Workman's Comp coverage, or certification of exemption from state.
- * Inventory of equipment compliment list.
- * Copy of Liability insurance coverage on the vehicle.
- * Copy of current Vehicle Registration.
- * Original Certified Weight Ticket for the vehicle. (By individual axle weight)
- * Tax ID Number (Federal ID, Employer ID)
- * Copy of tank certification (from mechanical engineer).
- * Checklist for Water Truck with classification

Spreader Bar: Water trucks shall have a spreader bar or equal capability that broadcasts an even spray (To be demonstrated at inspection)

- **Priority of Hire:** Emergency Equipment Rental Agreements will be initially issued for the number of pieces of equipment we feel are needed for the specific area. Priority for contracting will be 1.) availability to the area contracted in for initial attack and extended attack operations, 2.) qualified crew members meeting 310-1 standards, 3.) past performance, and 4.) compliance to the requirements listed in Chapter 20 of the Incident Business Management Handbook, specific to each piece of equipment.
- **Tank Baffles:** Confirm to the NFPA Standards for Mobile Water Supply Apparatus, or the American Society of Mechanical Engineers standards or other industry-accepted engineering standard.

- **Certification:** When classifying, all requirements for both equipment and –personnel must be acceptable and a government fire expert must certify the equipment and personnel meet minimum requirements. Equipment lacking this certification **shall not be signed up**. It shall be the contractor's responsibility to obtain the certification prior to dispatch.

• **GRAY WATER TRUCK**

- Some contractors have two tanks, one for the blue water and one for gray water on their trucks. There has been a question as to whether they are washing down toilets with tanks previously storing/hauling gray water, pesticides, etc. We have no method at this time to determine if sanitation has been done to the tanks when hauling gray water then hauling regular cleaning water or blue water. Equipment Committee working on this issue.
 - Hired at daily rate
 - Contractor provided operator and supplies.
 - Mileage if obtaining and/or disposing away from incident
 - Must comply with state and local laws
 - Contractor reimbursed for disposal fees unless government –provided disposal site.
 - Contractor pays own permit fees.
 - Cannot be used as a Tender or Water Truck
- **Retain clauses a., f., h., & j.** (Change Block identifiers to match agreement – Ex: 9 c, d. to 9 b or whatever pertains to - check document each time for matching reference numbers)
 - Add:
 - Item 9.c.,d. – Contractor is responsible for proper removal and disposal of wastewater. Contractor is responsible for all permits. Disposal fees to the nearest dump site, if applicable, will be reimbursed by the Government . Receipts are necessary for payment.
 - The Gray Water Truck, while supporting a portable toilet Resource Order, may not be hired separately by any incident.

c. GRAY WATER TRUCK , (Year, make, model, ___ gallons, License, VIN) (Gray Water Trucks will not be used for a Water Tender or Water Truck.)	1	\$	Day	\$1.25	Mile	N/A
--	---	----	-----	--------	------	-----

Adjust clause numbers and wording as needed.
